Plastic pill-like seals, for a clean sealing

In polypropylen, they are available in 9 mm

They resist to temperatures from -30° to +80°C.

They are mainly used to seal meters, fire-extinguishers.

To use it properly, insert wire thread in the 2 openings, and crush with a pair of sealing pliers. Blocks of pliers can be engraved, so that you get a personalized sealing.

Available colours : red, green, grey, black, white and yellow (in stock for 9 mm - 4/6 weeks for 13 mm)
