Sealing pliers

All our sealing pliers have plastified hands.

Depending on the seal diameter you want to crush, you have to choose among 4 types :

- 130 mm for 8 to 10 mm diameter seals - weight 200g - 10 mm diameter dies
- 175 mm for 10 to 12 mm diameter seals - weight 340g - 11 mm diameter dies
- 220 mm for 12 to 15 mm diameter seals - weight 560g - 13 mm diameter dies
- 260 mm for 16 to 18 mm diameter seals - weight 640g - 16 mm diameter dies

Every pair of pliers has a steady square- based die and a mobile round die. Each one can be engraved in our workshops : seals are thus marked when crushed.

You can also buy dies separately.
